THE FUTURE OF SANITIZATION

India's first non-alcoholic  
water-based sanitiser!

## ABOUT US

**RIRANSA INC HEALTHCARE LIMITED** is a Lucknow based company established in the year 2011 and has been manufacturing and supplying medical equipments ever since. However due to this global pandemic we have now stepped into the field of sanitization and hygiene.

### WATERISER

THE FUTURE OF SANITIZATION

India's first non-alcoholic  
water-based sanitiser!

**NO ALCOHOL**

Easy to use | Safe for skin | Non-Toxic | Non-Alcoholic | Clinically Tested

## ABOUT WATERISER

We are proud to bring to you, our very own "Wateriser" - India's first 100% alcohol free sanitizer which is economic, totally safe for health and gives complete protection from all kinds of germs including corona virus. A modern disinfectant for home and for work, which is free from the health risks of alcohol and other chemical based sanitizers and disinfectants.

The WATERISER has an **ability to act either as an Acid or a Base** depending on the other substances it is reacting with.

Being Surfactant (Surface Active Agent) it acts as detergent by lowering the surface tension & cleans the surface.

As the WATERISER is **cationic charged**, its microbicidal & anti virology action is been attributed to its **both Negatively & positively charged IONS** which are immediately attracted and adsorbed on negatively charged surfaces of proteins or the microbial or Virus cell walls leading to a disruption of the bacterial cell, or the viral envelope, respectively.

**Non corrosive on metal, steel, fabric, Rubber and other surfaces** due to low salt content and non-oxidizing property. pH Value of our disinfectant 7-7.5 and it is amino-acid based surfactant.

**IT HAS NO IMPACT ON SKIN / EYES/RESPIRATORY SYSTEM AND IS TOTALLY**

**SAFE FOR HUMAN EXPOSURE**

## PRODUCT DESCRIPTION

### WATERISER

The Wateriser is the future of sanitization. No more fear of skin problems, brain damage or inhaling toxic fumes present in the other sanitizers and disinfectants in the market. Wateriser is a perfect alternative, with absolute efficiency to rid of harmful germs, virus, bacterias and contamination. **Not only is the Wateriser alcohol free, but also it has a PH value of 7.5 which makes it completely safe and healthy, enhanced with aroma making it a delight to use.**

## PRODUCT FEATURES & BENEFITS

**NEW**

# WATERISER

THE FUTURE OF SANITIZATION

Wateriser is a spray bottle of sanitizer. The bottle is white with an orange label. The label features the Wateriser logo and text: 'WATERISER THE FUTURE OF SANITIZATION', 'India's first non-alcoholic water-based sanitizer!', 'Easy to use', 'Eco-Friendly', 'Non-Toxic', 'Non-Staining', 'Non-Mutagenic', 'NO ALCOHOL', 'KILLS 99.9% BACTERIA', 'SAFE FOR SKIN', 'LAB TESTED', 'SAFE FROM FIRE', 'ALCOHOL FREE', and 'Manufactured by ETCORP'. FIGHT COVID-19 WITH US

COVID-19 (Coronavirus) has affected day to day life and is slowing down the global economy. This pandemic has affected thousands of people, who are either sick or are being killed due to the spread of this disease. The most common symptoms of this viral infection are fever, cold, cough, bone pain and breathing problems, and ultimately leading to pneumonia. This, being a new viral disease affecting humans for the first time, vaccines are not yet available. **THE WATERISER IS OUTSTANDING ON ANTI-VIRUS TEST: FOR COVID-19, THE LOG ORDER THE REDUCTION COULD REACH 6 WITHIN 1 MIN, WHICH MEANS AN DEACTIVATION RATE > 99.9999%.**

**How can the spread of COVID-19 be slowed down or prevented?**

- staying home when sick;
- covering mouth and nose with flexed elbow or tissue when coughing or sneezing.
- Dispose of used tissue immediately;
- washing hands often with soap and water
- cleaning frequently touched surfaces and objects.
